We had no idea what kind of impact
a little piece of silver jewelry would
have on our hearts...

We started promoting Lilly Ollo silver clay charms in 2008, with a class where mothers created unique charm bracelets using their children’s fingerprints. I made one with my own children and wore it with pride. It didn’t take long for my friend Jill to notice. She mentioned wanting to do one with her children’s prints. Not long after that comment, Jill was diagnosed with lymphoma. During her treatment and as a gift to my dear friend, I took Jill’s three children to *glaze* where they each pressed a precious little finger into a clay mold hosting their initial. Jill was overwhelmed when she was given her charm bracelet. Unfortunately, she was only able to wear it a few times.

Jill’s battle with cancer went very quickly. She knew her journey on earth was coming to an end when she asked if I would help her create some keepsakes for her family. We couldn’t think of a better gift.

For each of her children and her husband, Jill created a handprint plate, along with a personalized message in her own handwriting. We also created silver charms with Jill’s fingerprint for her sisters, parents and close friends.

Jill passed away 10 days later, but she was able to leave behind a memory of herself for her loved ones to hold on to and treasure forever. My eyes fill with tears every time I think of her son placing his hand on top of the print of his mother’s. I have worn my charm around my neck every single day since she passed. It is one of my most cherished possessions.

glaze exists to create an atmosphere in which family and friends can come together to create, connect and converse while making lasting memories together. We recognize that we also offer a way to help preserve memories of loved ones with an abiding keepsake.

Precious Pottery

A glaze artist can create for you a custom pottery piece that expresses how a loved one touched your life. Simple phrases of precious memories can circle around a handprint or we could transfer actual handwriting to a ceramic piece. Think of how special it would be to have a child's artwork or a grandparent's handwritten recipe on a lasting keepsake.

*Silver fingerprint charms are priced at \$25 each.
